

## Spectator Seating

### **ENTRY :**

The unit will assemble at a setup line outside the competition area while awaiting their entrance to initial set up area. The waiting area is the area between the warm up gym and the front of the performance floor.

When directed, your unit will then proceed from the waiting area to the initial set up area once the previous competing unit has vacated that area.

This area will be  $\frac{1}{2}$  of the competition area. When further directed that unit will proceed with the remainder of their setup utilizing the entire competition area.

Interval time will start when the unit is released from the initial set-up area and crosses the center line.

### **EXIT:**

All personnel, equipment, and/or props must be off of the contest floor, clear of the interval line at the conclusion of the interval time.

For purpose of timing, equipment and props are considered removed when they have been moved across a center line either horizontal or vertical depending on the contest site.

After the equipment/props have crossed this line, they must be removed from the area immediately and taken to an area designated by the Contest Director.

Failure to remove equipment and props to the designated area in a timely manner is subject to a penalty at the discretion of the Contest Director. Backside and sideline usage will be at the discretion of the contest director, as defined by the facility.
