

**Top Hats Performance Ensemble and Excel Winter Guard are thrilled to announce a new cooperative venture,
Pittsburgh Performance Project!**

The much anticipated fusion of Top Hats Performance Ensemble and Excel Winter Guard brings together the synergy, collective vision and newly focused intensity of two organizations with an extensive history in the pageantry arts community.

After much discussion and meticulous planning change is now underway, staking out a new positioning for the two organizations as a solidified entity in the international competitive winter guard arena. This is an amazing opportunity to build and cultivate a strong independent performing arts organization in the Greater Pittsburgh Area and the Tri-State Region of Pennsylvania, Ohio and West Virginia.

Forging forward, joining forces will give Pittsburgh Performance Project powerful new capabilities from combined efforts and resources, as well as faculty. P3 will provide a competitive performance outlet for students at all stages of development, experience levels and abilities. The move creates a greater opportunity to support and foster growth of the performers, artists, athletes and designers who create extraordinary new work and to expand the market for this innovative artistry in Southwestern Pennsylvania.

You are invited to experience the Pride, Power and Passion of Pittsburgh Performance Project!
